

# Painter Estimate Follow-Up Script Pack PDF

Send the first follow-up within 24 hours while the walkthrough is still fresh.

Mention the exact painting project: interior rooms, exterior siding, cabinets, deck staining, or commercial repaint.

Attach one proof point: review, before/after photo, warranty note, prep process, or cleanup standard.

Make the next step small: approve the estimate, pick colors, schedule a start date, or ask one question.

Stop after a clear no, but tag the lead for a future seasonal reminder.
